Personal Information and Privacy Protection Statement

Scope of Application

This Statement applies to FinDreams Battery and its subsidiaries.

Basic Principle

Legitimacy: Personal information should be collected for specific, clear, and lawful purposes and processed in a legitimate and transparent manner;

Purpose limitation: The processing of personal information should have clear, explicit, and specific purposes for personal information processing;

Principle of Consent: Personal information processing activities should clearly state the purpose, methods, scope, rules, etc. of personal information processing, and seek authorization and consent from the information subject;

Data minimization: The personal information processed is appropriate, relevant, and necessary for the purpose of processing the data;

Accuracy: Personal information should be accurate and updated in a timely manner when necessary; According to the purpose of data processing, reasonable measures should be taken to ensure timely deletion or correction of inaccurate personal information;

Minimize storage: Store personal information within the necessary or legal period for processing purposes;

Integrity and confidentiality: Take necessary technical or organizational measures to ensure the security of personal information.

Management Framework

According to legal regulations and privacy protection principles, we have established a comprehensive and efficient personal information and privacy protection framework, covering the following contents:

Document system: Establish a comprehensive personal information and privacy policy and related institutional documents to ensure the standardization and normalization of various personal information and privacy protection work;

Personnel structure: Establish a dedicated personal information and privacy protection organizational structure, clarify the responsibilities of each department and position personnel, and ensure the smooth progress of personal information and privacy protection work;

Monitoring measures: Pay attention to industry dynamics and regulatory changes to update personal information and privacy related management systems, continuously monitor the implementation effectiveness of personal information and privacy protection measures, and adjust and improve them in a timely manner;

Protection measures: Utilize advanced technological means and management measures to ensure the security of personal information during storage, transmission, and processing;

Processing records: Establish detailed data processing records and manage the data in a hierarchical and classified manner;

PIA assessment: Conduct a Personal Information Protection Impact Assessment (PIA) in accordance with regulatory requirements in the operating region, identify potential personal information and privacy risks, and take effective measures to mitigate them;

Rights protection: Respect and safeguard the legitimate rights and interests of data subjects, including the right to be informed, the right to access, the right to correction, the right to be forgotten, the right to restrict processing, the right to data portability, the right to object, the right to withdraw consent etc;

Full life cycle protection: safeguarding the security and compliance of personal information during collection, use, sharing, storage, cross-border transmission, and deletion;

Solution: Establish a sound data security emergency response mechanism, conduct investigations based on the mechanism, and impose penalties on confirmed responsible persons to protect the company's sustainable information security.

Compliance Assurance

Internal audit: FinDreams Battery has established a regular audit mechanism to conduct regular inspections of personal information and privacy protection policies, processes, and measures, and to track and record all operations involving personal data in various unit systems;

External authentication: FinDreams Battery's personal information and privacy protection compliance work will form a compliance evidence chain, presenting compliance work to regulatory agencies to demonstrate FinDreams Battery's compliance transparency.

Stakeholder Requirements

FinDreams Battery will promote relevant partners (such as suppliers) to comply with this statement. Any violation of this statement may damage its cooperation with FinDreams Battery and even lead to the termination of the cooperation between the two parties.

Privacy Protection Commitment

FinDreams Battery's compliance efforts go beyond this. We will continue to follow and implement national regulations and policies on personal information and privacy data and data protection, and do our best to protect users' personal information and privacy. We always remember that protecting personal information and privacy is the top priority of all our tasks. We hereby promise:

1. Enhance personal information and privacy protection awareness, and every organization and individual should strengthen privacy protection issues and be alert to privacy risks;
2. Professionally, each process relies on professional technology and talent, using tools highly integrated with the business to achieve personal information and privacy protection and compliance requirements;
3. In the early stages of product design and development, integrate personal information and privacy protection into every aspect to make the product default to having privacy protection capabilities;

Adhere to an open learning attitude, enhance professional capabilities, optimize compliance frameworks, continuously implement protective practices, and promote the healthy development of personal information and privacy compliance.
